

# RECALLS GIRL. 15, FROM STAGE SERVICE BOARD NOW AROUSED

Lenora Crawford, the juvenile actress, back to her home in Worcester today, and the song-and-dance people know her no more.

Worcester moving picture patrons, who had loved Lenora's slight, white, and rosy face, her sparkling eyes, and her interpretation of "Anna Maria." "Any Little Girl Who's a New Little Girl in the Black Little Girl" for her and other moving picture, composed.

When she was given a treaty for her role in Worcester she secured a week's engagement at the Grand Theatre on Vermont street. She then went to the Pleasant Theatre on Pleasant street, where she became the hit of the show.

Meanwhile, Mrs. Crawford, who knew Lenora's father was in Worcester, also told her father that she was in Worcester, and that her father should come to Worcester and bring her home.

Lenora will not be sixteen years old yet next September.

The circulation of the American is 200,000 more than its next highest competitor and 15,000 more than all the other evening papers of Boston combined.

Stirred up by the appeal of Burroughs Jeremiah J. McCarthy of the Port of Boston, to Governor Dummer, because his appointment by Mayor Fitzgerald as Commissioner was rejected, the Civil Service Commission held a special meeting this afternoon.

McCarthy says that he is going to bring charges of neglect of duty against the Commission before the governor and his Executive Council. He says that he is going to make the commissioners say what their reasons were for rejecting his nomination. McCarthy declares that he has been treated unfairly and unjustly.

McCarthy, in a public statement, says that the Commission, in not appointing him, has shown a lack of confidence in his ability to perform the duties of the office.

## Prof. Koch Feared Earth Would Be Depopulated.

BERLIN.—The late Professor Robert Koch, a great medical scientist, who died suddenly, considered it as no wise to risk the human race at some future time to disappear from the earth owing to the disinfection of all bacteria. So says a friend and confidant, Professor Koch, who will shortly publish the particulars of Professor Koch's theory. Professor Koch held that the bacteria of all peoples as they get civilized become at first dangerous, and then as they reach the stage of prosperity decline, this fact being a sure sign of degeneration and the beginning of the end. Thus when all terrestrial peoples have arrived at that stage the extinction of humanity will gradually ensue.

# A. A. U. PROBES MARKS MADE BY SHEPPARD

NEW YORK, May 31.—Officials of the Amateur Athletic Union have decided to make the investigation of claims of new records on track and field more rigid than ever before. This statement was made by W. L. Jones, a member of the Metropolitan Association Board, at the A. A. U. headquarters in Warren street.

Mr. Jones casts no slur on the record already on the books, for the A. A. U. officials have always been careful in this respect but now that the accepted records of one athlete have become so difficult to recall, Mr. Jones says the A. A. U. must use more care in accepting new records.

As an example of what we intend to do, we will carefully investigate Mel's record of new world's figures for 600 and 700 yard races. We will also investigate the 1960 Olympic Decoration Day. We understand that rather than start and finish of the race, the officials start and finish of the race, the start was made at the 700 yard mark. The record was 22:09.4. The officials of the Metropolitan Board will attend to this.

There have been several claims of records recently, and especially from the 1960 Olympic record. The records are being made with the increase in the number of athletic meetings.

Our strictness to the matter of distances in track events being so close, the records are being made in the 1960 Olympic events and jumping being in the 1960 Olympic events and jumping being in the 1960 Olympic events will make the claim careful to be made.

"It is believed that several attempts have been made to fool the A. A. U. record committee.

### To Preserve a Government by the Consent of the Governed, the Boston American Advocates:

- First—Direct nominations, that the people may select such public servants as they deem worthy;
- Second—The recall, that the people may displace such public servants as have proved unworthy;
- Third—The Initiative, that the people may compel action upon such legislation as they deem necessary;
- Fourth—The referendum, that the people may accept or reject legislation as they deem desirable;
- Fifth—A Corrupt Practices act that will limit election expenses to legitimate purposes and make men, and not money, the deciding force in American politics;
- Sixth—Public ownership of public utilities, that the values created by the people shall belong to the people, and a referendum upon every public franchise, that no public servant shall barter the people's property for his private gain;
- Seventh—The election of Senators by the people, and of Judges for short terms, that no branch of government shall feel itself too far above the people or too long removed from the people.

### Mrs. Israel's Work Against Dangerous Dance Halls

We Prefer Her Attitude to That of Mr. Gaynor, the Mayor of New York  
Copyright, 1910, by American Journal Examiner

No exercise for young people is better than dancing. Nothing is more cheerful, more delightful than the pleasure of keeping time to music—it is the establishment of physical and mental harmony on a high plane.

It should be easy for all the young boys and girls of the country to dance as often as they please. Opposition to it is preposterous and out of date.

BUT THE MOST SHAMEFUL THING IMAGINABLE IS THE CRIME OF MEN THAT ESTABLISH DANCE HALLS AND CONDUCT THEM ON A DEGRADED, IMMORAL BASIS.

There are many such dance halls in all the great cities. In the city of New York, Mrs. Charles H. Israel has undertaken a necessary work by opposing the dangerous dance halls. At a meeting in Cooper Union she testified to the effect of these immoral resorts. She quoted the superintendent of the Belford Home for Women, who said that a thousand girls had come under her supervision—and every one of them had made the downward start in some badly conducted dance hall.

Mrs. Israel said also that it was not her intention to discourage dancing, to interfere with the innocent amusement of young people. On the contrary, she and others interested in philanthropic work are unobtrusively supporting and superintending certain dance halls—and a number of these are already established, not only on an absolutely moral basis, but also on a commercially profitable basis.

Mrs. Israel is entitled to the thanks of the community for the work that she is doing to protect young girls. Her attitude and work contrast most favorably with the attitude of Mr. Gaynor, the Mayor of New York.

This gentleman is quoted in the New York World as saying that the authorities should be "slow" about interfering with dance halls. And his magnificently convincing argument is: "I used to dance a great deal when I was young, and I never noticed that it did ME any harm."

Mr. Gaynor apparently forgot for the moment that Mrs. Israel and others are not interested in knowing what had happened to HIM when he went to dance halls.

They are interested, on the contrary, in WHAT HAPPENS TO YOUNG WOMEN THAT GO TO SUCH INSTITUTIONS. And the fact that a Mayor or any number of Mayors should be perfectly contented with their share in the dance hall proceedings is no argument at all against protecting young women who go to dance halls conducted badly.

Mayor Gaynor should revise his attitude, find out from Mrs. Israel and others what the facts are, and do what he can to interfere with the management of dance halls criminally conducted and loosely supervised—depraved institutions that bring about the destruction of the bodies and souls of so many girls.

### Violent Exercise Is Bad for Girls

Brooklyn's Board of Education Is Wise in Its Decision. Fathers of Girls Please Make a Note of This  
Copyright, 1910, by American Journal Examiner

They must not compete in violent exercise, such as high jumping, putting the shot, hurdle racing, and so on.

The girls are obliged to content themselves with fifty-yard races, competitions in throwing a baseball and throwing a basketball.

Naturally, these high school girls are indignant. They think that they have a right to injure their health permanently with violent effort if they want to. But they HAVEN'T such a right.

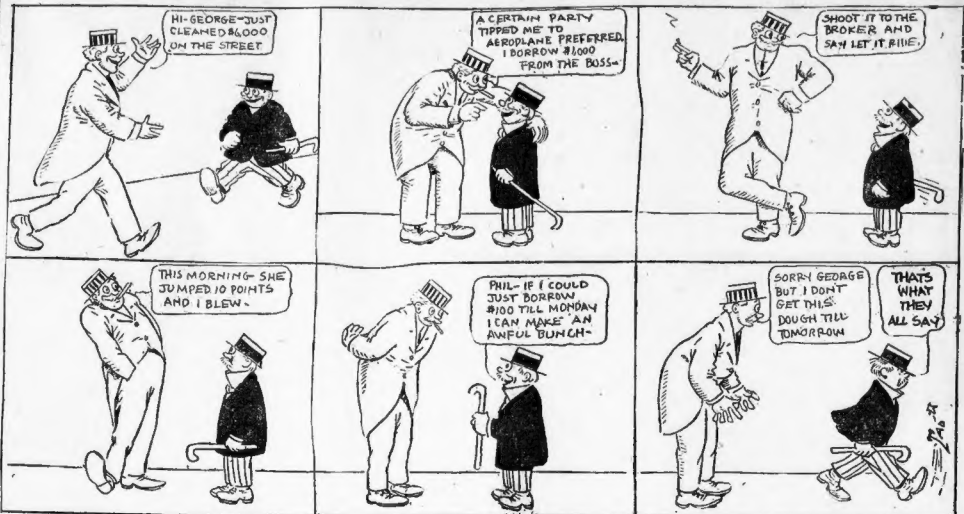

Women are not INTENDED or made to exercise violently. They cannot stand great physical strain. They have more important work to do. The strain that is put upon woman as a mother is greater than any strain that man ever endures. That is about all a woman should undertake.

Thousands of girls ruin their health skipping rope too long, trying which can keep on longest.

Recently there has developed and there has been encouraged among young girls a craze for so-called "Marathon dancing." In these competitions the girls strive for prizes that go to the girl that can continue dancing longer than any other girl. Some of these girls have danced for hours at a time.

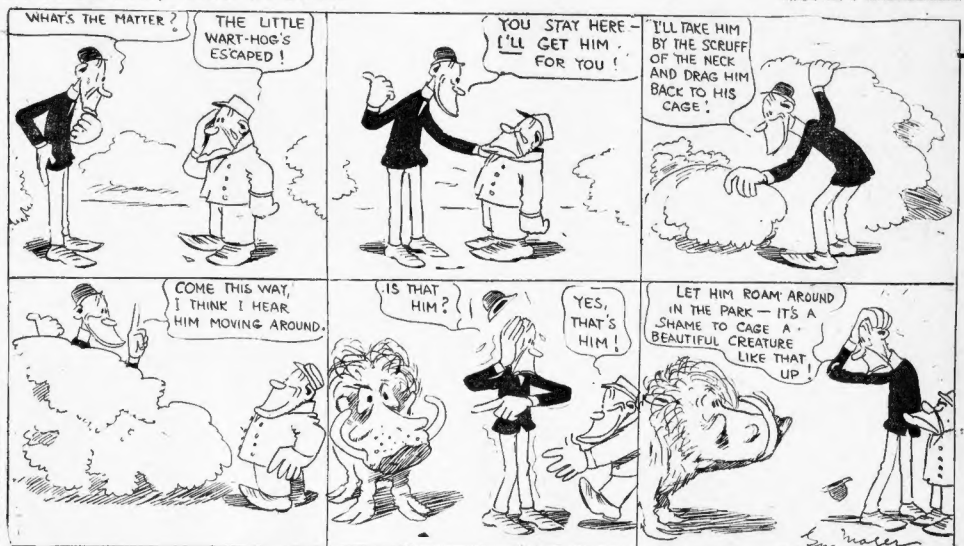

The men who promote such contests for money are criminals and the police should attend to them just exactly as though they were guilty of a dangerous assault.

Fathers and mothers should realize the difference between girls and boys. The boys should be protected from exercise that is TOO violent. The girls should be forbidden to undertake violent exercise at all times.
